Series 8700/8800 Replacement Sliding Window

Whether space is limited, or you would like to give your home a contemporary appearance, the Series 8700/8800 Replacement Sliding Window, with its abundance of convenience and performance features, is the perfect selection to satisfy many of your remodeling needs. Customize your home with a choice of three slider styles and a multitude of available options.

Improve Energy Efficiency: The Series 8700/8800 features standard 7/8" insulated glass for superior comfort and energy savings. It is **ENERGY STAR**® compliant in all four climate zones with optional LoE² Glass for maximum energy savings.

Optimize Performance: Welded vinyl frame and sash creates a strong, durable, weather-tight window. Double weatherstripping helps eliminate air, water and noise infiltration. Tested and certified to nationally recognized AAMA standards for strength and durability the Series 8700 achieved a design pressure rating of 40. A specially designed rolling track allows sashes to glide with ease.

Virtually Maintenance Free: Sashes and screens can be removed from inside the home, making cleaning a breeze. The vinyl frame can be easily cleaned with soap and water, keeping your windows looking new for years to come. Unlike wood, vinyl will never rot, peel, or warp and as a result, they will never need painting.

Personalize Your Home: Choose from a 2 lite slider, 3 equal lite slider, or 3 lite slider with picture window center. Many grille styles are available and are conveniently sealed inside the glass for carefree cleaning.

Limited Lifetime Warranty

Glass Options

Silver Line offers several types of glass for just about any requirement. From energy savings, to sound control, to privacy, one of our many choices is sure to meet your needs.

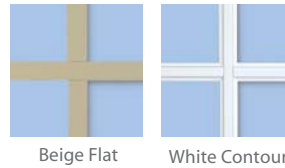

Energy Saver LoE² Glass - Reduces heating and cooling costs while keeping your home more comfortable all year long. Also reduces fading to window treatments, furniture and floor coverings caused by harmful UV rays.

Other Glass Choices Include:

- Tempered Glass
- Tinted Glass
- Obscure Glass
- Laminated Glass
- Argon Filled

Grille Options

Maintenance-Free Grilles - Grilles are sealed inside the glass unit, providing the look of muntins without the difficulty of cleaning them. Choose from two different grille types: flat or contour grilles. Several grille patterns are available, including Colonial, Prairie and Diamond patterns.

Colonial

Prairie

Diamond

Color Options

All Silver Line vinyl windows are available in white and beige. The color is consistent throughout the vinyl window frame and sash, making scratches virtually invisible.

When Shopping For Windows, Look For ...

...**ENERGY STAR®** rated windows. Windows that are **ENERGY STAR®** rated are deemed to be energy efficient by the US Department of Energy.

The Series 8700/8800 Sliding Window with optional LoE² Glass with Argon Gas is **ENERGY STAR®** compliant in all four climate zones.

NFRC MFG CODE: SIL			
Series 8700/8800			
Vinyl Sliding Window			
7/8" LoE ² Insulated Glass			
ENERGY PERFORMANCE RATINGS			
U-Factor (U.S.S.F.)	Solar Heat Gain Coefficient		
0.36	0.32		
ADDITIONAL PERFORMANCE RATINGS			
Visible Transmittance	Air Leakage (U.S.S.F.)		
0.55	0.1		

The **NFRC** label provides the U-factor and solar heat gain coefficient ratings of a window. The lower the U-factor, the more you'll save on heating bills. A low SHGC rating will help save on cooling costs.

The Series 8700/8800 Sliding Window has been tested and certified to NFRC standards for energy efficiency.

Glass Type	U-Value	SHGC
Clear	0.48	0.60
LoE ²	0.36	0.32
LoE ² /Argon	0.33	0.32

AAMA is a nationally recognized authority, developing voluntary standards to test and validate the structural performance of windows, doors and skylights.

The Series 8700/8800 has been tested and certified to AAMA design pressure (DP) standards. The higher the DP rating, the stronger the window.

Window Size	DP Rating
108" x 48"	DP-35
72" x 63"	DP-40
